

Please let New Jersey keep the DoNoCall list. I have so enjoyed not being disturbed during dinner or while making dinner and even after dinner when you can finally unwind from a hard work day without being interrupted by pesty telemarketing people. I know they have jobs to do, but in my home, I do NOT want to be bothered talking to these people and have to hang up on them anyway. If I want a credit card or phone service or cable service I will look them up and call them. I do NOT want to be solicited.
